Share insights to off-dock container movements

The Office of the British Columbia Trucking Commissioner (OBCCTC) and the Ministry of Transportation and Infrastructure are exploring opportunities to improve fairness, stability, efficiency and competitiveness in the Vancouver Gateway, specifically related to off-dock container movements.

We will be working with Cascadia Partners to help us better understand the flows of off-dock container movements in order to inform our policies and decision making. To inform this work, we need to better understand container repositioning, storage, and auxiliary truck trips that support containerized shipping throughout the Lower Mainland.

Share your thoughts

The OBCCTC invites you to share your thoughts and insights in regards to off-dock container movements in the upcoming months. Cascadia Partners will be reaching out to solicit your input. We appreciate you considering their requests for interviews and information.

Thank you in advance for your input to help us better understand the dynamics of off-dock container movements in the Lower Mainland.

Sincerely,

OFFICE OF THE BC CONTAINER TRUCKING COMMISSIONER

Michael Crawford
Commissioner

Sheryl Kozyniak
Deputy Commissioner
