CTS Licence Tag Management Policy – I/O List

Background

The Office of the BC Container Trucking Commissioner (“OBCCTC”) is aware of vacant I/O truck tags across licenced companies that cannot be filled by I/Os on the I/O list.

Under the CTS Licence Tag Management Policy:

- The Commissioner will monitor the I/O List and, if satisfied that it is desirable to add new Eligible I/Os to the I/O List, will publish a request for applications.
- Should the number of applicants exceed the number of advertised spaces, the successful applicants will be determined by a lottery.
- Successful applicants will be notified in writing and will have 30 days from the date of the written notification to acquire a compliant vehicle, secure a Sponsorship/Joinder and secure VFPA TLS approval, unless consent is granted in advance by the OBCCTC to extend the timeframe.
- Subject to the discretion of the OBCCTC, any applicant seeking to be placed on the I/O List must not have been a company employee of a Licence holder in the three months prior to being placed on the I/O List.

Request for Applications

This Bulletin is notice to all stakeholders that the Commissioner has determined that it is desirable to add 15 new Eligible I/Os to the I/O List. Effective June 4, 2018, applicants can submit their name for consideration by filing out the attached application. Applications will be accepted until close of business on June 18, 2018 and must be sent to the OBCCTC at the following email address: Registrar@obcctc.ca

Sincerely,

OFFICE OF THE BC CONTAINER TRUCKING COMMISSIONER

Michael Crawford
Commissioner
