November 16, 2026

CTS Licence Condition Regarding NSC Status

A number of trucking companies involved in overpass strikes – including some CTS licensees – have had their National Safety Code (NSC) Certificate suspended pending the completion of their investigation.

The Office of the British Columbia Container Trucking Commissioner (OBCCTC) reminds all CTS licensees that in accordance with Appendix B(2)(b) to Schedule 1 of the 2024 CTS Licence, if their NSC is suspended or terminated, the licensee must:

- Advise the OBCCTC immediately about the suspension/termination
- Immediately cease the carrying out of container trucking services

Holding a valid NSC certificate is a continuous condition of operating under a CTS licence. Licensees must also keep the OBCCTC informed of any change to, reinstatement of, or resolution to a NSC suspension or termination.

Failing to immediately notify the OBCCTC about a suspension or cancellation of a licensee's NSC constitutes a breach of CTS licence conditions and may result in regulatory enforcement action.

Sincerely,

OFFICE OF THE BC CONTAINER TRUCKING COMMISSIONER

Glen MacInnes
BC Container Trucking Commissioner

Karm Jauhal
Deputy BC Container Trucking Commissioner
